Dear Secretary:

RE: FERC Form Nos. 6 and 6T, and 6-Q and 6-QT - Docket No. IC22-4-000

Thank you for the opportunity to provide input to the Notice of information collections regarding FERC Forms 6 and 6T, and 6-Q and 6-QT.

XBRL US is a nonprofit standards organization, with a mission to improve the efficiency and quality of reporting in the U.S. by promoting the adoption of business reporting standards. XBRL US is a jurisdiction of XBRL International, the nonprofit consortium responsible for developing and maintaining the technical specification for XBRL (a free and open data standard widely used around the world for reporting by public and private companies, as well as government agencies). Our members include accounting firms, public companies, software, data, and service providers, as well as other nonprofits and standards organizations.

We support the current requirements that FERC Forms 6 and 6-Q be prepared in XBRL format. The requirement for XBRL structured data standards ensures that Form 6 and Form 6-Q data is machine-readable which improves the ability of the Commission to perform audits and reviews, and conduct research. It enhances the usefulness of the data for the public who rely on FERC data to monitor rates as well as the financial condition of the oil pipeline industry and the energy markets.

Again, we appreciate the opportunity to provide input to this proposal, and would be happy to respond to any questions you may have. Contact me by emailing campbell.pryde@xbrl.us or at (917) 582- 6159.

Respectfully,

A handwritten signature in blue ink, appearing to read "Campbell Pryde".

Campbell Pryde,
President and CEO
