

SEC Fee Filing Requirements – Phase 1 Lessons Learned

July 16, 2025

- Nikkyann Berteau, Sales Engineer & EDGAR Next Lead, Broadridge Financial Solutions, Inc.
- Theresa Jasper, Senior Product Specialist, Toppan Merrill
- Angela McTere, Business Requirements Analyst, Donnelley Financial Solutions (DFIN)

### Agenda

- Overview of the Rule
- Practical Tagging and Preparation
- Reviewing the Exhibit
- Resources and Tips

### Overview of the Rule

Effective January 31, 2022, the SEC implemented final rules that removed the filing fee information from the cover of most fee bearing forms and required that all fee information be included in a new Filing Fee Exhibit (EX-FILING FEES).

The SEC believes that moving the fee information to a structured exhibit would streamline presentation of the information and cause the validation process to be more efficient.

- Compliance Dates for Inline XBRL Tagged Filing Fee Exhibit:
  - July 31, 2024 Large Accelerated Filers.
  - July 31, 2025 All filers must comply, including certain investment companies that file registration statements on Forms N-2 and N-14.

### Overview of the Rule

- FFD (Filing Fee Disclosure) Taxonomy published January 26, 2024
- 72 Submission types impacted by the new fee exhibit requirements.
  - Most fee-bearing forms and schedules were amended to require enhanced disclosure of the fee information.
  - Information required in the structured fee tables varies depending on the form type and rule referenced in the form.
  - Tabular disclosure of all fee offset information.
  - EDGAR performs heightened validations on information in the fee exhibit when submitted as a Test and/or Live filing.
  - Removal of fee fields from the submission headers.

# Practical Tagging and Preparation

## Practical Tagging and Preparation

In the next several slides we will review

- Challenges of iXBRL tagging fee exhibits
- Parts of an EX-FILING FEE Exhibit
- Elements of XBRL
- The Filing Fee Disclosure (FFD) taxonomy
  - FFD specific elements
  - Some examples in the SEC's Fee Exhibit Preparation Tool ("FEPT")

- While the Filing Fee Modernization rule has been effective for several years the fee exhibit requirements have been in free-format HTML
- With the final phase of the iXBRL requirement beginning on July 31, 2025, fee exhibits must fit within the fee data structure provided by the FFD taxonomy
- The XBRL requirement will include restrictions and validations that were not present in HTML format
- One significant restriction is the usage of *fee note* which replaces the conventional HTML *footnotes*
- Filings will be suspended for poorly tagged fee information beginning 3 months after the final phase (i.e., October 31, 2025)

### Review the Elements of XBRL

- Taxonomy Acts as the dictionary and framework
  - The FFD taxonomy is updated regularly (generally every year), like most taxonomies
  - An open taxonomy allows for modification, extensions, and company specific or unique reporting elements
  - A *closed* taxonomy is standardized and rigid with less flexibility. The FFD taxonomy is a *closed taxonomy*
- *Instance* Actual report or data
  - The FFD instance document is an XML file containing the actual filing feerelated data
- *Context* Defines the reporting circumstance for the tagged data
  - The FFD context document contains the period (date) of the filing combined with optional dimensions (for FFD table lines or rows)

### Additional Notes

- Unlike other taxonomies (such as US-GAAP):
  - There is no separate schema the schema is the FFD taxonomy
  - Additional linkbases are not allowed
- There are no definable XBRL calculations, presentations or labels
  - Calculations are implied, such as offering value multiplied by the fee rate equals fee amount
- Concept names follow ISO abbreviation conventions, for example:
  - AmtSctiesRegd Amount of Securities Registered
  - IssrBizAdrStatOrCtryCd Issuer Business Address State or Country Code
- Fee exhibits can be prepared and edited as regular iXBRL or using a tool such as the SEC's Fee Exhibit Preparation Tool ("FEPT")

## EX-FILING FEES Exhibit

- The primary form under which the fee exhibit is filed will determine what fields may be used
- The data for most forms have the following sections:
  - Submission (Table) Information
  - Fees Summary
  - Table 1 Offerings
  - Table 2 Offsets
  - Table 3 Combined Prospectus
- The rule being used will change what facts are required
- Rule 424I has slightly different items

## EX-FILING FEES Exhibit

- The following slides are based on the EDGAR XBRL Guide, Filing Fee Extract and the Fee Exhibit Preparation Tool (FEPT)
- To use the FEPT:
  - Open the submission type from EDGARLink Online ("ELO")
  - Enter appropriate data for the submission (i.e., CIK, CCC, File Number)
  - Launch FEPT from the documents page
- Other tools are also available for tagging the fee exhibits
- For this discussion, some of the FFD concept names are called out (this is not a complete reference)

### Summary Information (Section 4.2 Submission Table of the EDGAR XBRL Guide)

- Basic information about the filing:
  - The CIK (dei:EntityCentralIndexKey) (must also be entity in contexts)
  - Registrant Name (dei:EntityRegistrantName)
  - The Form Type (FormTp) and Submission Type (SubmissnTp)
  - File Number (**RegnFileNb**) (if amendment)
  - Fee Exhibit Type (always "EX-FILING FEES")
- Certain items are (can be) hidden from HTML view
- All items are non-dimensional

### Summary Information

#### Fee Exhibit Preparation Tool

The Fee Exhibit Preparation Tool assists filers in estimating filing fees and provides general guidance on preparing the calculation of Registration Fee Table and related footnotes. Based on the data provided, values and content will display that may be used, if accurate, to complete the Registration Fee Calculation Table, associated footnotes, and EDGAR entries.

Do You Have a Saved .JSON File? Select the Restore button to retrieve your saved work from your local device.

### Fees Summary

(Section 4.3 Fees Summary Table of the EDGAR XBRL Guide)

- Includes:
  - Total Offerings
  - Total Fee Amount (TtlFeeAmt)
  - Total Offset Amount (TtlOffsetAmt)
  - Fees paid (NetFeeAmt)
- May include, for some submission types:
  - Narrative disclosure (NrrtvDsclsr)
  - Amounts (NrrtvMaxAggtOfferingPric)/(NrrtvMaxAggtAmt), and
  - Whether this is a final prospectus (FnlPrspctsFlg)
- All items are non-dimensional

### Final Prospectus

Fee Totals Amounts will tally as items are added or subtracted.	Use This Form To Gener	ate an EX-FILING FEES Exhibit		
• Total Registration Fees	Filer CIK <b>0</b> 0000990387	Submission Type <b>1</b>	Form Type <b>1</b>

### Offering Table (Table 1)

### Offsets Table (Table 2) (Section 4.6 Offset Table of the EDGAR XBRL Guide)

- A series of dimensional entries which include the following, in part:
  - Applicable Rule 457(b), Rule 457(p) or 0-11(a)(2))
  - Offset "Claim" or "Source" depending on flag
  - Offset File Number (OffsetPrrFileNb)
  - Initial filing date (OffsetClmInitlFilgDt)
  - Offset Source Filing Date (OffsetSrcFilgDt)
  - Fee Offset Amount Claimed (OffsetClmdAmt)
  - Offset Amount (OffsetPrrFeeAmt)
  - Like table 1, an optional note is allowed (OffsetNote)
  - However, depending on the rule an additional note is <u>required</u> for an explanation (OffsetExpltnForClmdAmt) or termination/withdrawal (TermntnCmpltnWdrwl)

### Offset Table (Table 2)

### Table 2 entry example:

Fee Totals  Amounts will tally as items are added or subtracted.  Total Registration Fees \$153.10	Fee Offset Type: 1 Source

# Reviewing the Exhibit

### Saving Data and Creating iXBRL

- With FEPT, you can save your work in the form of a JSON file and later restore your session into FEPT, so long as the submission type, CIK, and file number (if applicable) are the same
- Once built, the data must be exported into iXBRL to be attached to the submission — no other FFD files are attached
- The fee exhibit can be validated via Arelle or a test filing
- You can also view in the interactive data viewer or directly from FEPT

Combined Prospectuses	
Save your work as a .json file to your local device, if you need more time. When ready to complete, you can return and restore the file.	
Save Preview Generate Exhibit

### The Data Model

- While we may not generally think of GAAP or Risk Return as modeled data but they are, you can see that when you look at the XBRL data in Arelle or other tools
- For those taxonomies, filers have a lot more latitude to extend the taxonomy (making their own taxonomy with their own namespace)
- FFD is closed and rigid and as such the incoming data has to be shaped to a certain extent to match that model

### Footnotes versus Fee Notes

- By convention footnotes have been placed on table headings, specific values and within total or summary information
- FFD only allows a note to be added as a fact to a table row
- For all tables, each row can have one optional note
- Some rules require an explanation/claim/withdrawal note
- These are known as *fee notes*
- During the transition *this will be a pain point*

### Footnotes versus Fee Notes

- Fee note numbers shown in the HTML/iXBRL are assigned based on the dimensional axis (line number), they are <u>NOT</u> tagged as XBRL
- For FEPT, special characters are not allowed
- For FEPT, line breaks are maintained
- See 1.11 of the *Filing Fee Interface Guide*

Exhibit 107

	Total Fee Offsets							\$11,070.00				
		Net Fe	e Due					\$0.00				

(1) Any securities registered hereunder may be sold separately or as units with other securities registered hereunder. The securities which may be offered pursuant to this Registration Statement include, pursuant to Rule 416 of the Securities Act of 1933, as amended (the "Securities Act"), such additional number of shares of the registrant's common shares that may become issuable as a result of any stock split, stock dividends or similar event.

(2) An indeterminate aggregate offering price and number or amount of the securities of each identified class is being registered as may from time to time be sold at indeterminate prices, with a maximum aggregate offering price not to exceed \$75,000,000. Separate consideration may or may not be received for securities that are issuable upon conversion of, or in exchange for, or upon exercise of, convertible or exchangeable securities.

(3) The proposed maximum offering price per share will be determined from time to time by the Registrant in connection with the issuance by the Registrant of the securities hereunder and is not specified as to each class of security pursuant to Item 16(b) of Form S-3 under the Securities Act.

(4) Pursuant to Rule 457(o) under the Securities Act, the registration fee has been calculated on the basis of the maximum aggregate offering price. This registration statement includes a total of \$193,436,638 of unsold securities that had previously been registered under the registrant's registration statement on Form S-3 (No. 333-249218) filed the with Securities and Exchange Commission on October 1, 2020, and declared effective on October 14, 2020 (the "Prior Registration Statement"). In connection with the registration of securities (\$200,000,000 total) on the Prior Registration Statement, the registrant paid a total registration fee of \$21,820 a portion of which (\$193,436,638 or \$21,104 in fees) was not sold thereunder. Pursuant to Rule 457(p) under the Securities Act, the registrant is offsetting the \$21,104 that was previously paid and unused under the Prior Registration Statement against the \$11,070 registration fee relating to the securities offered by this registration statement, leaving a filing fee of zero dollars owed in connection with the securities registered hereunder.

Registration State	ement"). In connection wit	h the registration of secur	ities (\$200,000	,000 total) on t	he Prior Registration Stat	ement, the registrant paid a	total registra		of which (S	\$193,436,63	8 or \$21,10	)4 in fees) was

not sold thereunder. Pursuant to Rule 457(p) under the Securities Act, the registrant is offsetting the \$21,104 that was previously paid and unused under the Prior Registration Statement against the \$11,070 registration fee relating to the securities offered by this registration statement, leaving a filing fee of zero dollars owed in connection with the securities registered hereunder.

### When You File

- The iXBRL file is attached (no other files are XBRL associated with this file)
- Validate your EX-FILING FEE exhibit with a tool such as Arelle — Test file if the submission date is critical
- Make sure you check the box to attach an inline filing fee document
- In EDGARLink Online this location will vary depending on the form type

### Key Take Aways

- Legacy EX-FILING FEES (Ex-107) have been filed in free format HTML
- The FFD taxonomy and FEPT force the fee information into a rigid data model
- One of the more important considerations is the manner which footnote or fee note information is disclosed
- The taxonomy cannot be extended: filers cannot create concepts, presentations, roles, etc.

# Tips and Resources

- Enabling the FEPT link on the Documents tab, the following items are required:
  - When filing initial registration statements (e.g., N-2, S-1, F-1, S-3), a valid CIK and CCC are required
  - Amended fee bearing filings and/or 424B filings require a valid File Number as well as the CIK and CCC.
  - MEF filings (e.g., F-3MEF, N-2MEF, S-3MEF), requires a valid 462B File Number in addition to the CIK and CCC.
- Altering the Fee exhibit type name is not allowed, i.e., EX-Filing Fees 107.
- Forms where the Filing Fees are optional, select checkbox for **Fee Table/Exhibit included** on the main page to access the FEPT.

- Filing fees are computed using the **US Dollar (USD)**.
- Validation of fees previously paid and Offsets used.
- Validates Security name referenced in the previous filing.
- FEPT automatic calculations:
  - Maximum Aggregate Offering Price
    - A different amount can be entered (override), if appropriate.
  - Amount of Registration Fee
    - For previously paid line(s), the Amount of Registration Fee might not equal Aggregate Fee Rate, therefore you can override the automatically calculated sum.

- Fee notes are limited to a maximum of 10,000 characters.
- Carry Forward Initial Effective Date **must match** the registration's Effective Date.
- Carry Forward Initial Effective Date **must not be more than three years** from the initial Filing Date of the current registration statement.
- At least one Fees Previously Paid is required on the following submissions:
  - SC 13E1/A, SC 13E3/A, SC13E4F/A, SC14D1F/A, SC TO-I/A, SC TOT/A, PRER14A, and PRER14C.

## Top Ten Review checklist

- 1. FEPT automatic calculations
- 2. FEPT system generated Warning Report
- 3. Preview the EX-FILING FEES exhibit (inline XBRL rendering)
- 4. Review each inline XBRL tag
  - Concept
  - Fact value
  - Axis/Member
- 5. Table, 1, 2 & 3, as applicable

- 6. ALL Fee notes (no special characters)
- 7. 424B Narrative only disclosure\* False warning for "ffd:NetFeeAmt".
- Interactive Data view (Standard XBRL rendering) – Completeness check!
- 9. Arelle Validations
- 10. EDGAR Test filing results
